

7-MAVZU · I BOB. HTML VA CSS

CSS background va border xossalari

Fon rangi, fon rasmi, takrorlanish, joylashuv va o'lcham (cover/contain), gradientlar; chegaralar: qalinlik, uslub, rang, border-radius, box-shadow va outline.

Bugun nimani o'rganamiz?

- **Fon rangi**, fon rasmi va **gradient**
- Fon rasmini joylashtirish: `cover` va `contain`
- **Chegaralar** (border) va yumaloq burchaklar
- **Soyalar** bilan "kartochka" dizayni

Fon rangi — background-color

CSS

```
body { background-color: #f1f5f9; }  
.quti { background-color: #4f46e5; color: white; padding: 20px; }  
.shaff { background-color: rgba(79, 70, 229, 0.2); padding: 20px; }
```

- `rgba` — yarim shaffof fon
- `padding` — matn va chegara orasidagi ichki bo'shliq (keyingi mavzuda batafsil)

Fon rasmi — background-image

CSS

```
.banner {  
  height: 250px;  
  background-image: url("../rasmlar/tog.jpg");  
  background-size: cover;  
  background-position: center;  
  background-repeat: no-repeat;  
  color: white;  
}
```

Xossa	Qiymatlar
background-repeat	no-repeat repeat-x
background-position	center top right
background-size	cover contain 200px
background-attachment	fixed — parallax

cover va contain

- `cover` — butun qutini **to'ldiradi**, ortiqchasi kesiladi
- `contain` — rasm **to'liq** ko'rinadi, bo'sh joy qolishi mumkin

O'xshatish: `cover` — telefon devor qog'ozi (ekran to'la, chetlari kesiladi); `contain` — rasm ramkada (butun ko'rinadi, atrofida bo'sh joy).

`url()` ichidagi yo'l **CSS faylga** nisbatan: `css/style.css` dan `rasmlar/fon.jpg` → `url("../rasmlar/fon.jpg")`

Qisqa yozuv (shorthand)

CSS

```
/* Uzun yozuv */
```

```
.banner {  
  background-color: #1e293b;  
  background-image: url("fon.jpg");  
  background-repeat: no-repeat;  
  background-position: center;  
  background-size: cover;  
}
```

```
/* Qisqa yozuv – size "/" dan keyin */
```

```
.banner { background: #1e293b url("fon.jpg") no-repeat center / cover; }
```

Gradientlar

CSS

```
.g1 { background: linear-gradient(to right, #4f46e5, #06b6d4); }  
.g2 { background: linear-gradient(135deg, #f97316, #ec4899, #8b5cf6); }  
.g3 { background: radial-gradient(circle, #fde047, #f97316); }  
  
/* Rasm ustida qoraytiruvchi qatlam — oq matn yaxshi o'qiladi */  
.g4 {  
    background: linear-gradient(rgba(0,0,0,.5), rgba(0,0,0,.5)),  
                url("shahar.jpg") center / cover;  
}
```

- Gradient — rangdan rangga silliq o'tish; u **fon rasmi** sifatida ishlaydi

Chegaralar — border

CSS

```
.b1 { border: 2px solid #4f46e5; }  
.b2 { border: 3px dashed tomato; }  
.b3 { border: 4px dotted green; }  
.b4 { border: 6px double #333; }  
.b6 { border-bottom: 3px solid orange; }  
.b7 { border-left: 6px solid #4f46e5; }  
.b8 { border-width: 1px 4px 8px 12px; }
```

- 3 qism: **qalinlik, uslub, rang**
- Uslublar: `solid` `dashed` `dotted`
`double` `groove`
- Faqat bir tomon: `border-bottom`,
`border-left`

Soat strelkasi qoidasi: 4 qiymat —
tepa → **o'ng** → **past** → **chap** (margin
va padding'da ham)

Yumaloq burchaklar — border-radius

CSS

```
.r1 { border-radius: 10px; }
.r3 { border-radius: 50%; }           /* doira */
.r4 { border-radius: 40px 0 40px 0; } /* barg */
.r5 { border-radius: 999px; }        /* "tabletka" tugma */

img.avatar {
  width: 120px; height: 120px;
  border-radius: 50%;
  object-fit: cover;
  border: 4px solid white;
}
```

border-radius: 50% + teng kenglik va balandlik = doira

Soyalar — box-shadow

CSS

```
box-shadow: 0 4px 12px rgba(0, 0, 0, 0.15);  
/*  
    |      |      |      |  
    |      |      |      L rang (yarim shaffof)  
    |      |      |      xiralik (blur)  
    |      |      |      pastga siljish (y)  
    |      |      |      o'ngga siljish (x)      */  
  
.s1 { box-shadow: 0 1px 3px rgba(0,0,0,.12); } /* yengil */  
.s3 { box-shadow: 0 20px 40px rgba(79,70,229,.35); } /* rangli */  
.s4 { box-shadow: inset 0 2px 6px rgba(0,0,0,.2); } /* ichki */
```

⚠ `outline: none` bilan fokus chizig'ini o'chirmang — klaviaturadan foydalanuvchilar adashadi.

BO'LIM

Amaliy mashg'ulot

"O'quvchi kartochkasi" — zamonaviy card dizayni

Amaliyot: HTML qismi

HTML

```
<div class="karta">
  <div class="karta-fon"></div>
  
  <h2>Malika Karimova</h2>
  <p class="sinf">8-"A" sinf · Frontend yo'nalishi</p>
  <p class="matn">HTML va CSS bilan chiroyli sahifalar
    yaratishni yaxshi ko'raman.</p>
  <a class="tugma" href="#">Portfolioni ko'rish</a>
</div>
```

Amaliyot: CSS qismi

CSS

```
body {  
  background: linear-gradient(135deg, #e0e7ff, #fce7f3);  
  padding: 40px;  
}  
.karta {  
  width: 320px; margin: 0 auto;  
  background-color: white;  
  border-radius: 20px;  
  box-shadow: 0 15px 35px rgba(79, 70, 229, 0.2);  
  text-align: center;  
}  
.karta-fon {  
  height: 110px;  
  background: linear-gradient(to right, #4f46e5, #06b6d4);  
  border-radius: 20px 20px 0 0;  
}  
.avatar { width: 110px; height: 110px; border-radius: 50%;  
          border: 5px solid white; margin-top: -55px; }  
.tugma { background: #4f46e5; color: white; padding: 10px 22px;  
        border-radius: 999px; text-decoration: none; }
```

Ko'p uchraydigan xatolar

- ❌ Fon rasmi ko'rinmaydi — yo'l HTML'ga nisbatan yozilgan yoki element balandligi 0
- ❌ `border: 2px red;` — uslub (`solid`) unutilgan
- ❌ Doira emas, oval — `width` va `height` teng emas
- ❌ Qattiq qora soya `5px 5px 0 black` — yumshoq, shaffof soyalar ishlatish

Savol

Fon rasmi butun maydonni to'ldirishi (ortig'i kesilishi) uchun nima kerak?

A `background-size: contain`

B `background-size: cover`

C `background-repeat: repeat`

D `background-position: fill`

Javobni tanlang — to'g'ri variant yashil bo'ladi

Savol

`margin: 10px 20px 30px 40px;` da chap tomon necha piksel?

A 10px

B 20px

C 40px

D 30px

Javobni tanlang — to'g'ri variant yashil bo'ladi

Savol

Kvadrat rasmni doiraga aylantirish uchun nima kerak?

A `border-radius: 50%`

B `border: circle`

C `shape: round`

D `border-radius: 10px`

Javobni tanlang — to'g'ri variant yashil bo'ladi

Savol

`box-shadow: 0 10px 20px rgba(0,0,0,.2)` da `20px` nima?

A O'ngga siljish

B Xiralik (blur)

C Pastga siljish

D Soya rangi

Javobni tanlang — to'g'ri variant yashil bo'ladi

Uyga vazifa

- 1 Vizitka bosh sahifasiga **gradient + fon rasimli banner** qo'shing
- 2 3 ta sinfdosh uchun turli rangdagi **o'quvchi kartochkalari**
- 3 **cssgradient.io** da o'z gradientingizni yarating

✓ Yodda tuting

- Fon: `background-color`, `background-image: url()`, `-size: cover/contain`
- Qisqasi: `background: rang url() no-repeat center / cover`
- Gradient: `linear-gradient()`, `radial-gradient()`
- Chegara: `border: qalinlik uslub rang`; tartib — tepa, o'ng, past, chap
- `border-radius` (50% = doira), `box-shadow` — soya
